

OLIVIA DAS

Aspiring Backend Developer | B.Tech Computer Science Student

Hooghly, West Bengal, India | Email: absoluteolivia03@gmail.com | GitHub: github.com/Absoluteolivia | LinkedIn: linkedin.com/in/olivia-das-b7b706282/

PROFESSIONAL SUMMARY

Aspiring Backend Developer and B.Tech Computer Science student focused on Python-based backend development, REST APIs, databases, and scalable web applications. Dedicated to architecting clean API endpoints, optimizing database queries, and implementing reliable backend systems.

EDUCATION

JIS College of Engineering — **B.Tech in Computer Science & Engineering**

2024 – 2028 (Expected) | West Bengal, India

TECHNICAL SKILLS

Languages:	Python, JavaScript, SQL
Backend:	Django, Django REST Framework, Express.js, REST APIs
Frontend:	HTML5, CSS3, JavaScript
Databases:	MySQL, MongoDB
Tools & Env:	Git, GitHub, VS Code, PyCharm, Postman
Data Libraries:	Pandas, NumPy, Matplotlib

FEATURED PROJECTS

SwiftLink – URL Shortener with Analytics

Node.js, Express.js, React, Redis, SQLite

- Engineered full-stack URL shortening platform with RESTful APIs, link management, and fast redirection.
- Implemented Base62 short-code generation algorithm for compact URL key hashing.
- Optimized response latency using Redis in-memory cache-aside pattern to serve redirection requests in sub-milliseconds.
- Indexed short_code schema in SQLite database and enforced rate limiting middleware to prevent system abuse.
- Built analytics engine capturing click metrics, browser types, device categories, referrers, and QR code generation.

AI-Career-Skill-Analyzer

Node.js, Express.js, MongoDB, Python

- Architected backend APIs for an AI-powered career and technical skill gap analysis platform.
- Integrated Python data processing modules to evaluate skill requirements against industry roles.
- Designed document schemas in MongoDB for dynamic user profile and career data storage.

Netflix Relational SQL Analysis

MySQL, SQL, Git, GitHub

- Analyzed a comprehensive Netflix movies and TV shows dataset by composing 15+ complex SQL analytical queries.
- Utilized multi-table JOINS, GROUP BY, HAVING clauses, aggregate functions, subqueries, and window functions.

RESEARCH & PUBLICATION

Paper: "Controlling Diabetes of High Blood Sugar Level through Souls Stickers Akka Wafers"

Journal: International Journal of Versatile Research and Analysis (IJVRA) | Vol. 4, Issue 4, April 2026 | Paper ID: IJVRA2604612

Authors: Olivia Das, Arka Rajak, Arijit Das, Paramita Das, Sneha Biswas

HACKATHONS & LANGUAGES

Hackathons: Smart India Hackathon (SIH) 2025 (Participant), AI & Web3 Hackathon (Participant), Innovocon, BINARY Hackathon

Languages: Bengali (Native), English (Professional Working), Hindi (Professional Working)
